

# **NOTICE OF ROAD WORK**

## **EAST ALLEN TOWNSHIP RESIDENTS**

### **Mountain View Circle and Mountain View Drive**

On May 26<sup>th</sup> with a rain date of May 27<sup>th</sup> (weather permitting) during the hours of 6:30 AM to 6:30 PM the above listed streets are scheduled to receive a roadway paving process known as FB-3 Modified Pavement Resurfacing. The project will be completed in three separate phases. The first phase to be completed consists of placing an overlay of ¾ inch Depth of FB-3 Modified Leveling Course followed by a 1 ½ inch Overlay, which will be completed approximately two weeks after the initial leveling course. You will be re-notified prior to the 1 ½ inch Overlay.

The final two phases will be the application of a Seal Coat using ¾ inch aggregate followed by a Fog Seal. These two applications will take place at later date and you will also be re-notified prior to this occurring. Do not be alarmed as any loose aggregate will be swept within two weeks prior to the final Fog Seal which will provide a black uniform surface.

The roads will only be closed during the first overlay phase. If possible, please refrain from using the road to provide safety for you and our workers. After the paver passes your driveway, you will not be permitted to enter or exit your driveway until the material has been compacted, approximately 1-2 hours, and if you must use the road after it has been compacted; please drive very slowly to avoid damage to the road surface and/or your vehicle. For the first few months the paving material will be tender and to avoid damage please drive with care and DO NOT sit stationary while turning the steering wheel both entering or exiting your driveway.

Your Township Public Works Department and Asphalt Maintenance Solutions, LLC. look forward to providing you with a new road and thank you in advance for your cooperation.
